Profile Summary

Results-driven Data Analyst with experience in SQL, Python, Power BI, Excel, ETL pipelines, and Business Intelligence across e-commerce and healthcare domains. Skilled in exploratory data analysis, data cleaning, KPI reporting, dashboard development, statistical analysis, and business reporting. Proven ability to transform large datasets into actionable insights, automate reporting workflows, and deliver data-driven solutions that improve operational performance and business decision-making.

Technical Skills

Programming Languages	Python, SQL
Data Analysis	Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Data Validation, Statistical Analysis, KPI Analysis, Cohort Analysis, Trend Analysis, Root Cause Analysis, Business Reporting, Forecasting
BI & Visualization	Power BI, DAX, Power Query, Dashboard Development, KPI Reporting, Data Visualization, Reporting Automation, Data Modeling, Star Schema, Drill-through Reports, Row-Level Security (RLS)
Databases & SQL	MySQL, PostgreSQL, MongoDB, Advanced SQL, Joins, CTEs, Window Functions, Views, Stored Procedures, Query Optimization, Data Warehousing
Analytics Tools	Microsoft Excel, Pivot Tables, XLOOKUP, VLOOKUP, Power Pivot, Google Sheets, Power BI Service
Libraries & Tools	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Git, GitHub, REST APIs

Work Experience

KrayaDotShop

Data Analyst

New Delhi, India

Oct 2025 -- Apr 2026

- Built Power BI dashboards to track operational KPIs, customer engagement, and conversion funnel performance for a video-commerce platform.
- Analyzed customer behavior and clickstream data using SQL and Python, identifying drop-off trends that improved conversion efficiency by 18%.
- Developed ETL and data-cleaning pipelines using Python and Pandas to improve reporting accuracy and operational efficiency.
- Automated recurring business reports, reducing manual reporting efforts and improving reporting efficiency across teams.

My Physio Friend

Data Analyst & Software Engineer

Remote

Jun 2025 -- Sep 2025

- Analyzed and cleaned 1,000+ customer and appointment records using SQL and Power BI to improve operational reporting and scheduling efficiency.
- Conducted exploratory data analysis on patient engagement and booking trends, contributing to a 25% reduction in appointment drop-offs.
- Developed frontend and backend features for the company's web platform to improve performance and user workflows.

BSES Yamuna Power Limited

Software Development Engineer Intern

New Delhi, India

Jul 2024 -- Aug 2024

- Worked on the frontend development of an internal BSES web platform, building responsive and user-friendly web pages for operational workflows.
- Implemented and optimized UI components to improve webpage usability, accessibility, and overall user experience.
- Collaborated with development teams to integrate frontend modules with backend APIs and ensure smooth application functionality.

Projects

Supply Chain KPI Analytics Dashboard

FMCG Delivery Performance Optimization

Power BI, SQL, Python

GitHub

- Built a Power BI dashboard to analyze FMCG supply chain performance using KPI tracking for OTIF, LIFR, and VOFR metrics.
- Identified delivery bottlenecks and operational inefficiencies to support inventory planning and vendor performance monitoring.

Customer Churn Prediction & Retention Analysis

Customer Retention Analysis

Power BI, SQL, Python

GitHub

- Performed customer churn analysis on 7,000+ subscription records using SQL, Python, and Power BI.
- Applied cohort analysis and segmentation techniques to identify high-risk customers and improve retention strategies.

Certifications

- Oracle Cloud Infrastructure 2025 Certified Data Science Professional -- Oracle
- Generative AI Mastermind -- Outskill
- Alpha DSA with Java -- Apna College

Education

Guru Gobind Singh Indraprastha University

Bachelor of Technology

New Delhi, India

Jun 2022 -- May 2026

CGPA: 7.77/10
